

SMART Response VE: Your Internet Enabled Device is Now A Student Responder!

Nick Nicholson

This session will highlight SMART Response VE (Virtual Edition) and how it can be used on any internet-enabled device (iPad, iPod, Netbook, etc.) as a student responder. With more and more schools integrating mobile devices, this session will show you how to leverage these devices for assessing student learning.

Working Smarter w/ SMART Boards

Nick Nicholson

This session will provide an overview of how to integrate SMART boards and the Notebook software into any classroom.
