

D219 Tech Conference

1:1 and WEB 2.0

An Exploration of Digital Literacies

Mark your calendar for District 219's premier technology-learning event. This dynamic program will include a keynote address, interactive spotlight sessions and engaging teacher presentations, all focusing on a variety of cutting-edge instructional technology strategies:

- Internet and WEB 2.0
- Hybrid modes of instruction
- Communication & collaboration
- Free and open source applications
- Google Apps applications
- Student success and assessment

As wireless access will be available, please feel free to bring your favorite mobile device so that you can be an active participant in this conference.

April 9th
2011

"As little as we know about the future, for which we are preparing our children, it is clear that it will be a place that is governed by information ... the concept of literacy — "the basics" — in an information-governed technology-rich world will be far richer and more comprehensive than the 3Rs that continue to define schooling for many. This enlightening and thought-provoking address will describe how our notions of literacy must expand to harness a rapidly changing information landscape where content and knowledge are increasingly networked, digital, and overwhelming."

David Warlick, Keynote Speaker
